# SHELBY AMERICAN COLLECTION

The Shelby American Collection is proud to offer this new book from David Bull Publishing by author and automotive historian Frank Barrett and photographer Boyd Jaynes - **Shelby Cars in Detail - Cars of the Shelby American Collection**. This spectacular 12X14-inch volume profiles a fascinating array of cars from the Shelby American Collection. They include the Cobra's predecessor, the A.C. Ace-Bristol; race and street variants of 289 and 427 Cobras; the Daytona and Willmet Coupes; the GT40 and innovative, high-tech Ford Mk IV J-Car; and the earliest GT350.

Shelby Cars in Detail presents the chassis histories of each of these fascinating cars, leading the reader through their individual specifications, provenance, and racing performances. Along with such well-known Shelby drivers as Ken Miles, Bob Bondurant, Dan Gurney, and Mario Andretti, the book also shares the racing exploits of fascinating independents, including Bob Johnson, Tom Payne, Dan Gerber, and Tommy Hitchcock.

The individual features of each Shelby car are displayed to even greater effect through the dynamic studio photography of Boyd Jaynes. His immaculately composed pictures reveal the tiniest facets of engines, bodywork, and cockpit components, as well as providing full views of each model.
